Gentlemen:

**Underground Tanks**  
**Specification No. 2928**

We have reviewed the modified procedure dated February 16 and 20, 1989 for handling the PCB and tanks located at the Georgetown site, and find them acceptable.

Yours truly,  
*Original Signed by*

rec'd Mon - AM 2/27  
I called Summers to tell him  
I had not been given the Feb 16 & Feb 20  
procedure to review, yet they've  
already approved them.

Mon P.M. (4:30 after interviews.)  
procedures on my desk plus  
red tag on ESI waste profile sheet.

I called Weems to object to timing  
and time squeeze. He wants to  
discuss - tomorrow P.M. ? Asks  
that I call him -
